DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 20 August 2007 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Boyd (US 20020194049A1) in view of Romano ("Meet me in Cyberspace", *Association Management*, September 1998).
4. Boyd teaches (independent claim 1) a method and system for providing online networking groups, the method comprising:

registering three or more users by asking them to store information in *user profile database 213* (para. [0064] and [0085-0086]), which reads on entering a profile and a second profile (and a third profile) into a computer database, and creating a networking group (all three or more users/members) contained within said computer database; and

a first user forming and posting an invitation to a networking meeting to two or more other users ([0049 and 0024]), the *selection preferences and criteria* including that the attendees be *intellectual property attorneys* ([0031]), the invitation being placed in *invitation database 211*, which reads on comparing said profile and said second profile (comparing

Art Unit: 3622

both user profiles to the *selection preferences and criteria*)¹, moving said second profile into a second database (*invitation database 211*) if said second profile and said second profile contain same professions and same areas of practice (*intellectual property attorneys*), and creating a network group (the invited members) contained within said second database (*invitation database 211*).

5. Boyd does not teach networking/meeting online. Romano teaches networking/meeting online (Abstract). Because Romano teaches that this enables networking when members lack the opportunity to interact face-to-face (Abstract), it would have been obvious to one of ordinary skill in the art, at the time of the invention, to add the teachings of Romano to those of Boyd.
6. Neither reference teaches (claim 6) communicating online via video/audio conferencing. However, Boyd does teach a system with video monitors and cameras ([0094 and 0101]). Because Boyd teaches that the purpose of the reference invention is to make the best use of a user's time ([0006]), it would have been obvious to one of ordinary skill in the art, at the time of the invention, to add meeting by video/audio conferencing to the teachings of Boyd and Romano.

Response to Arguments

7. Applicant's "Remarks" on pp. 4-10 filed with an amendment on 20 August 2007 have been fully considered but they are not persuasive. Indeed, this material is at least largely a quotation from the last Officer action, mailed on 18 May 2007. The examiner could not find new argument therein.

Conclusion

8. This is a continuation of applicant's earlier Application No. 09801167. All claims are drawn to the same invention claimed in the earlier application and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the earlier application. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action in this case. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

¹ Things compared to the same thing are compared to each other.

9. A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
10. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donald L Champagne whose telephone number is 571-272-6717. The examiner can normally be reached from 9:30 AM to 8 PM ET, Monday to Thursday. The examiner can also be contacted by e-mail at donald.champagne@uspto.gov, and *informal* fax communications (i.e., communications not to be made of record) may be sent directly to the examiner at 571-273-6717. The fax phone number for all *formal* matters is 571-273-8300.
11. The examiner's supervisor, Eric Stamber, can be reached on 571-272-6724.
12. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
13. **AFTER FINAL PRACTICE** – Consistent with MPEP § 706.07(f) and 713.09, prosecution generally ends with the final rejection. Examiner will grant an interview after final only when applicant presents compelling evidence that "disposal or clarification for appeal may be accomplished with only nominal further consideration" (MPEP § 713.09). The burden is on applicant to demonstrate this requirement, preferably in no more than 25 words. Amendments are entered after final only when the amendments will clearly simplify issues, or put the case into condition for allowance, clearly and without additional search or more than nominal consideration.

Art Unit: 3622

14. Applicant may have after final arguments considered and amendments entered by filing an RCE.
15. **ABANDONMENT** – If examiner cannot by telephone verify applicant's intent to continue prosecution, the application is subject to abandonment six months after mailing of the last Office action. The agent, attorney or applicant point of contact is responsible for assuring that the Office has their telephone number. Agents and attorneys may verify their registration information including telephone number at the Office's web site, www.uspto.gov. At the top of the home page, click on Site Index. Then click on Agent & Attorney Roster in the alphabetic list, and search for your registration by your name or number.
